Name: *Gerri A. Henwood*

Title: *President and Chief Executive Officer*

Date: March 4, 2020

## **Baudax Bio Signs Non-Binding Term Sheet for Debt Facility**

*Strategic Financing to Provide Funding for the Commercial Launch of ANJESO™*

**MALVERN, PA, March 4, 2020** – Baudax Bio, Inc. (NASDAQ:BXRX), a pharmaceutical company focused on therapeutics for acute care settings, today announced that, as part of its overall capital financing strategy to fund the Company and the upcoming commercial launch of ANJESO™, it has signed a non-binding term sheet with an undisclosed party for a secured term loan for up to \$20 million in non-dilutive funding over the next 12 to 18 months.

Baudax expects to close this debt financing transaction in the next 4 to 8 weeks.

### **About ANJESO™**

ANJESO (meloxicam) injection is a proprietary, long-acting, preferential COX-2 inhibitor that possesses analgesic, anti-inflammatory and antipyretic activities, which are believed to be related to the inhibition of cyclooxygenase type 2 pathway (COX-2) and subsequent reduction in prostaglandin biosynthesis. ANJESO was approved by the U.S. Food and Drug Administration in February 2020 for the management of moderate to severe pain, alone or in combination with other non-NSAID analgesics. Because of the delayed onset of analgesia, ANJESO alone is not recommended for use when rapid onset of analgesia is required. The Company expects to launch ANJESO in late April or early May 2020. The ANJESO product approval was supported by two pivotal Phase III clinical efficacy trials, a large double-blind, placebo-controlled Phase III safety trial and four Phase II clinical efficacy trials, as well as other safety studies. As a non-opioid, Baudax Bio believes ANJESO has the potential to overcome many of the issues associated with commonly prescribed opioid therapeutics, including respiratory depression, constipation, excessive nausea and vomiting, as well as having no addictive potential, while maintaining meaningful analgesic effects for relief of pain. ANJESO was designed using the NanoCrystal® platform, a technology that enables enhanced bioavailability of poorly water-soluble drug compounds. NanoCrystal® is a registered trademark of Alkermes Pharma Ireland Limited (APIL).

### **About Baudax Bio, Inc.**

Baudax Bio is a specialty pharmaceutical company focused on therapeutics for acute care settings. The Company's lead product candidate is a proprietary intravenous (IV) form of meloxicam, a non-opioid, once a day preferential COX-2 inhibitor. IV meloxicam has successfully completed two pivotal Phase III clinical efficacy trials, a large double-blind placebo-controlled Phase III safety trial, four Phase II clinical efficacy trials, as well as other safety studies. As a non-opioid, IV meloxicam has the potential to overcome many of the issues associated with commonly prescribed opioid therapeutics, including respiratory depression, constipation, excessive nausea and vomiting, as well as having no addictive potential while maintaining meaningful analgesic effects for relief of pain. ## Cautionary Statement Regarding Forward Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. Such forward-looking statements reflect Baudax Bio's expectations about its future performance and opportunities that involve substantial risks and uncertainties. When used herein, the words "anticipate," "believe," "estimate," "may," "upcoming," "plan," "target," "intend" and "expect" and similar expressions, as they relate to Recro or its management, are intended to identify such forward-looking statements. These forward-looking statements are based on information available to Recro as of the date of this press release and are subject to a number of risks, uncertainties, and other factors that could cause Baudax Bio's performance to differ materially from those expressed in, or implied by, these forward-looking statements. The following are some of the factors that could cause our actual results to differ materially from those expressed in or underlying our forward-looking statements: our ability to execute a debt financing transaction at all or on terms acceptable to us, our ability to secure financing in the amounts set forth above. Factors that could cause Baudax Bio's actual performance to materially differ from those expressed in the forward-looking statements set forth in this press release include, without limitation, the risks and uncertainties included in Baudax Bio's filings with the Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov).
